

Postdoctoral Fellow Positions in Transportation Systems Srinivas Peeta, Ph.D., Georgia Tech

Postdoctoral fellow positions are available broadly in the transportation systems domain. Candidates with multidisciplinary perspectives in autonomous, connected, and/or shared-mobility transportation are especially encouraged to apply. Appointees will be involved in research efforts in one or more of the following: network modeling, optimization, control, driving-simulator environments, simulation, methods in learning, data analytics, econometric modeling, system-of-systems, etc. Duties include conducting original research, disseminating research findings, mentoring students, managing projects, and participating in collaborative research and proposal efforts. Opportunities for teaching experience will also be available. The positions are open immediately, and appointments are for one year, with a possibility for renewal.

Candidates should have a Ph.D. in transportation systems, operations research, control, systems engineering, psychology, or other related disciplines. They should have excellent communication and writing skills, and be fluent in English.

Interested candidates should email: (1) a cover letter, (2) curriculum vitae, (3) contact information of three references, and (4) 1-2 sample papers to **Dr. Srinivas Peeta** (peeta@gatech.edu), Frederick R. Dickerson Chair and Professor, Georgia Tech. The review of applications will begin immediately. Applications will continue to be accepted until the positions are filled.

Srinivas Peeta, Ph.D.
Frederick R. Dickerson Chair and Professor
School of Civil and Environmental Engineering
H. Milton Stewart School of Industrial and Systems Engineering
Georgia Institute of Technology
Principal Research Faculty, Georgia Tech Research Institute
